

Lula Commerce handles creating, executing, and maintaining a seamless 1st and 3rd party e-commerce experience through an AI-driven solutions platform. With \$56M+ in digital revenue generated, 1.5M+ hours saved for retailers, and 30M+ catalog items synced across 44 states, Lula removes the hidden complexities of digital ordering so retailers can focus on running their stores.

Advantages and Benefits

- **Compliance Complexity:** Automated management of state-specific bottle taxes, age-restricted product windows, and complex tax rules.
- **Catalog Maintenance:** AI-powered enrichment of item descriptions, images, and nutritional data across all platforms.
- **Payment Complexity:** Streamlined handling of refunds, chargebacks, and reconciliation across multiple DSPs.
- **Platform Fragmentation:** Single unified interface replacing multiple tablets and support systems from different delivery platforms.
- **Regulatory Updates:** Continuous monitoring of changing SNAP/EBT, alcohol, and tobacco sales regulations.
- **Operational Overhead:** End-to-end management of reviews, customer service issues, and inventory reconciliation.
